**Headteacher's News**

One of the focus areas in our School Improvement and Development Plan is around Mathematics. Since the start of September we have made a few improvements to our practice. The first change is to the organisation of the morning lessons; we now have a 20 minute 'Fluency' lesson and then a separate 'Mathematics' lesson. In the 'Fluency' lesson each class practises basic number facts (using a counting stick, songs etc) and calculation methods (+, -, ÷, x) so that they are really secure and form a solid bedrock for the rest of the mathematical learning. You may also have noticed that the Homework has slightly altered so that this basic facts and calculations approach can be supported by you at home as well. The usual Mathematics lesson takes part later in the morning where the focus is much more on the problem-solving and reasoning aspects. I cannot emphasise enough how knowing number facts to 10 and then learning multiplication tables makes the rest of maths so much easier to master so thank you for your support in this.

And finally, it was lovely to see you at our Parents' Evenings this week. A wonderful celebration of the hard work of the children and staff and the partnership we have with home. Have a lovely weekend. **Deborah Wood**

## Reading Workshop for Reception Parents

On **Thursday 22<sup>nd</sup> November at 8:50am**, Mrs Matthews our Family Link Worker will be running an informal workshop in the hall on Reading. During the workshop she will explain how our reading scheme and reading reward schemes work; discuss ways in which you can support your child with reading; and introduce some fun activities to do.

The first part will be adults only (younger siblings can be brought) and afterwards your child will join you to make something together. Tea and coffee will be provided. You will also be given a free book from The Reading Trust! It should be informative, enjoyable and a good chance to make friends with other parents and carers.

### School Funding Concerns

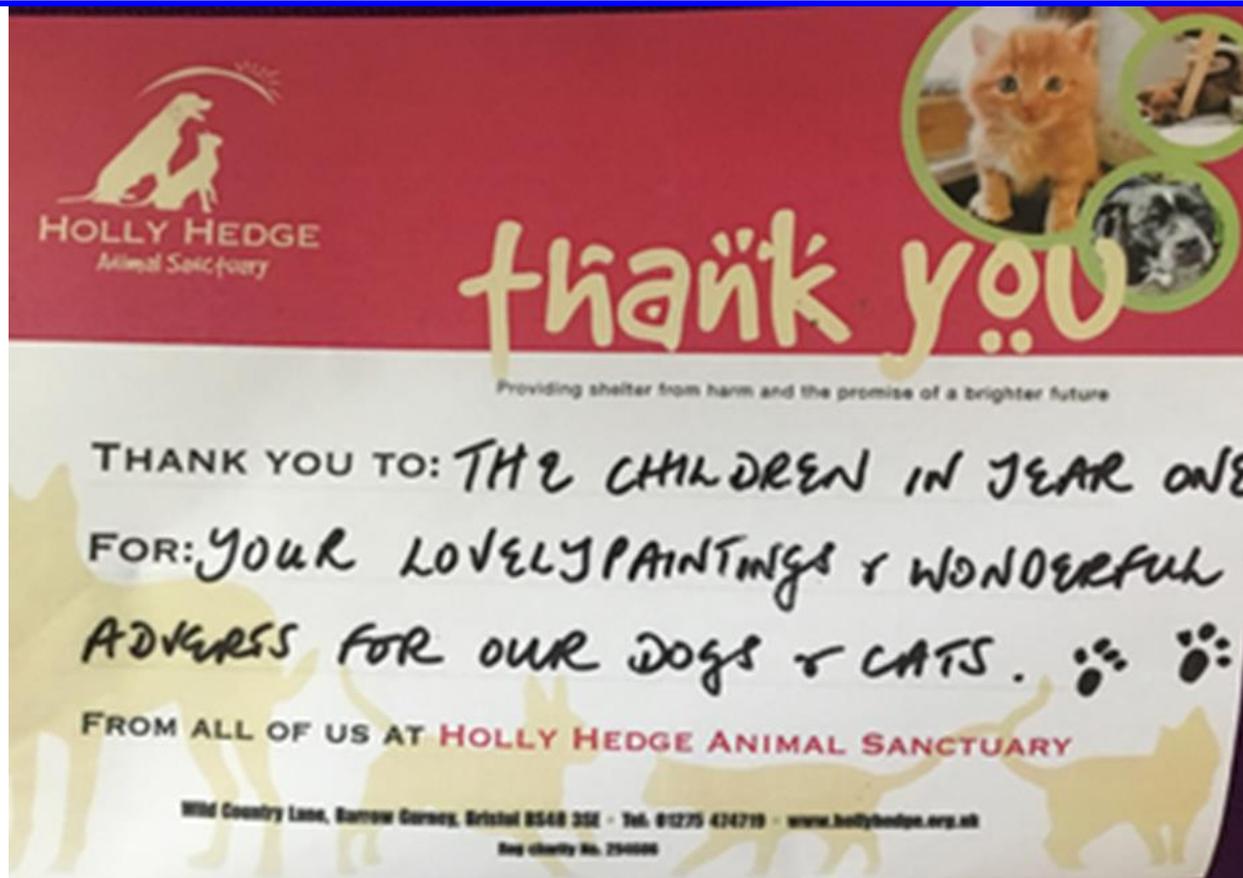

We hope you have been able to see the Schools Series on BBC, which is certainly highlighting the real impact of funding on our schools. Please could you read the article from the Bristol Post.

<https://www.bristolpost.co.uk/news/bristol-news/letter-south-goucestershire-heads-funding-2217157>

Currently South Glos have a forecast deficit of £12million largely due to the significant increase in spending to support children and young people with Special Educational Needs and Disabilities (SEND). The council are investigating ways in which schools can pay back the SEND deficit. If you are interested in having your say over funding for SEND, there is consultation document on the South Glos website.

With increased overheads already, the Governing Body have not accepted any of the three suggested options arguing that any claw back would have a significant impact on the education provision at Courtney.

### Out of School Clubs (OoSC)

Welcome back for the Christmas half term. An exciting time for everyone.

#### Our programme for next week is:
