3. Barriers to Future Attainment (for pupils eligible for PP including high ability)

Barriers	Approach
A Pupils who are eligible for PP (and have no other complicating factors) are making less progress than others in Reading between KS1 and KS2.	CPD; TA Provision Tracking and Monitoring
B Pupils who are eligible for PP (and have no other complicating factors) are making less progress than others in Mathematics between KS1 and KS2.	CPD; TA Provision Tracking and Monitoring
C The teachers and Pupil Premium Champion need to continually develop high quality first teaching and knowledge of current best practice in PP provision.	CPD; TA Provision Tracking and Monitoring
D Pupils eligible for PP are not achieving Greater Depth standard by end of KS2 (so need accelerated progress based on starting points).	CPD; TA Provision Tracking and Monitoring
E Pupils' Speech and Language may be underdeveloped on entry to primary school and this limits progress in communication, language and literacy.	SALT Team; TA Provision Tracking
F Pupils eligible for PP are sometimes not getting the exposure to a strong and varied reading diet regularly or at an appropriate level.	CPD; TA Provision; RA Provision Tracking and Monitoring
G Pupils eligible for PP have sometimes not developed the Mathematical fluency skills they need which results in low confidence in Mathematics.	CPD; TA Provision Tracking and Monitoring
H Pupils may be dealing with many factors internally and externally which may affect their Social, Emotional and Mental Health Needs (SEMH) which may have a negative impact on learning and attainment.	Family Link Worker Student Welfare Group Play Leader
I Non-attendance or lateness of pupils in school reduces their school hours and causes them to fall behind academically.	Attendance Tracking EWO Attendance Meetings
J Financial limitations can prevent inclusion in the wider opportunities offered by school.	Uniform Subsidy; Office Time Visit Subsidy
K Parents and carers of pupils eligible for PP sometimes need greater encouragement to become involved with school life.	Family Link Worker Tracking and Monitoring

4. Research-Based Evidence of Most Effective Methods to Close Pupil Premium Attainment Gaps

From **TES** article, Sir Kevan Collins of the Education Endowment Fund explained the merits of sticking with the policy and provided three suggestions to ensure the original aims are achieved. (16th October 2018)

So, how can schools and academies ensure that, when budgets are under such immense pressure, pupil premium is making the greatest difference? Sir Collins shares three suggestions:

"First, we must strengthen the link between the pupil premium and teaching. While the premium should remain a ring-fenced part of school budgets, this financial separation should not cause it to become isolated from the core business of schools. We can be obsessed with add-ons. There is undoubtedly still a place for targeted support, but high-quality first teaching is the most powerful driver of educational equity.

"Second, schools should regard it as absolutely legitimate to spend their pupil premium to get – and keep – the teachers they need to deliver that high-quality teaching. In 2015, **the NAO found** that fewer than five per cent of schools used the premium to support recruitment. But using the premium to tackle the recruitment and retention challenge – and evaluating new approaches as we innovate – must make sense at a time when it is schools' biggest worry.

"Third, more should be done to encourage schools to share successful strategies. Increasing the level and quality of school-to-school support, as recommended this month by the **NAHT Headteacher Union's Accountability Commission**, is crucial to creating a consistently excellent system."

Education Endowment Fund Attainment Gap Report 2018	
Sharing effective practice between schools – and building capacity and effective mechanisms for doing so – is key to closing the gap.	CDP, Best Practice
Catch up is difficult: we should aim to get it right first time round for all children.	CPD, Monitoring and Tracking
Early Years education has huge promise in preventing the attainment gap becoming entrenched before children start school.	EYFS Leadership
What happens in the classroom makes the biggest difference:	CPD, Monitoring and Tracking
Targeted small group and one-to-one interventions have the potential for the largest immediate impact on attainment.	TA Feedback, Pre- & Post Teaching
The transition between phases of education – notably early years to primary, and primary to secondary – is a risk-point for vulnerable learners.	EYFS Leadership, Y6 Transition
Pupil Premium funding is a valuable focus to support senior leaders in raising the attainment of disadvantaged young people...Good teaching for all pupils has a particular benefit for disadvantaged pupils.	CPD, Monitoring and Tracking
The ... teaching assistants can be deployed more effectively. Though previous research had suggested that teaching assistants can have a negative impact on children's learning, EEF trials have shown how, when properly trained and supported, teaching assistants working in structured ways with small groups can boost pupils' progress.
